Portfolio : <http://amIrawish.github.io/Portfolio/>

Ambitious and academically accomplished Computer Science student with a 3.8 GPA and a passion for information technology and innovation. Proven ability to work independently and contribute to a team. Adept at problem solving, critical thinking, and collaborating across diverse teams. Demonstrates strong communication, adaptability, and leadership skills.

EDUCATION

Bachelor of Science – Computer Science (GPA: 3.8/4.0)

University of Calgary | 2022–Present

Relevant Coursework: Data Structures, Algorithms, Computer Networks, Database Systems, Software Engineering, Cybersecurity Fundamentals, Human-Computer Interaction
Fourth-year student with a solid foundation in data analysis, and system design.

Study Abroad Program – University of Leeds (June–August 2024)

Strengthened cross-cultural communication, adaptability, and global problem-solving through academic collaboration with international students.

EXPERIENCE

IT Project Assistant | 2169165 ALBERTA INC. | May 2022- Apr 2023

Supported end-to-end IT project delivery by analyzing data, developing technical documentation, presentation, visual workflows, and data insights that enhanced project accuracy, governance, and decision-making.

Tutor Mentor | Tutor Doctor / Peak Tutoring | Apr 2023- Present

Provided individualized academic support in Math and Science, creating adaptive learning plans and fostering student success through strong communication, collaboration, leadership and mentorship.

Soccer Coach | McKenzie United Soccer Club | 2019- 2022 (seasonal)

Coached and mentored youth teams, promoting teamwork, discipline, and continuous improvement through structured training sessions.

PROJECTS

Re-Route | Robot based game

Developed a robot-based learning game in python using SunFounder's PiCrawler Raspberry Pi robot. Utilized socket programming, computer vision, and navigation algorithms to develop functionality.

Self-Checkout Kiosk System | Software Development

Designed and developed a comprehensive self-checkout system software for grocery stores using Java. Used JavaFX to build the corresponding GUI.

Personal Portfolio | Website

Built a personal portfolio website using React, JavaScript, CSS, and HTML to showcase my projects and experience.

SKILLS

- Advance Analytical and critical thinking skills
- Strong team player
- Exceptional Communication Skills
- MS Office (word, excel, PPP, Visio)
- Programming languages (C/C++, Java, Python, CSS)
- Creative problem solver
